

Follow up Survey for REU in Computational Chemistry

Have you graduated and if not when will you graduate?

If so, what are you doing after graduation (job, med school, grad school, etc.)? Where is your job or what school will you be attending?

Did your REU program at Iowa State influence your career goals or your attitude about science? Please elaborate.

Have you maintained contact with your REU advisor? Describe how.

Did your REU experience have an impact on your academic activities during the next academic year? If so, please explain how.

Did you continue working on your REU research project after you returned to your home institution?

Please comment on what you accomplished during the school year.

If you are not graduating, will you be considering returning to ISU for another summer?
